Details on our Pre-Admission checks:

- ✓ We will require proof of your resources prior to admission to the home to ensure that you have sufficient capital available (in your own name) to meet a minimum projected 2 years fees. This check is conducted as part of the standard pre-admission process and your place at the home cannot be guaranteed until all these checks are completed.
- ✓ As part of that pre-admission process we will require proof that you have valid Power of Attorney arrangements in place to ensure someone is authorised to make decisions on your behalf should you lose capacity, together with a valid Will appointing Executors to act for you on your demise. Should you not have either of these in place we will request that you arrange for those documents to be put in place at the earliest opportunity.
- ✓ A Guarantor may be requested in certain cases to make up any missed residential fee payments in the event of a resident defaulting on the same, full details are in Section 2 of our Terms & Conditions (a copy of which will be made available as part of our Additional information pack which will be sent to you before you sign the Agreement to become a resident at the home).

Details on State-Funded or NHS Funded Care:

- ✓ If a resident's financial circumstances change during the period of their stay with us, and their capital resources fall below the level at which they can request assistance with their fees from the Local Authority, we will then require the residents family or other representative to enter into a formal Third Party Top-up agreement with the Local Authority, at that time, to cover any shortfall of charges that will arise. This is covered more fully in Section 1 of our Terms & Conditions (a copy of which will be made available as part of our Additional information pack or is available to view on our website).
- ✓ If a resident's health deteriorates and they are then assessed as being eligible for NHS Funded Nursing Care payment (FNC), you should be aware that the FNC payment is made directly to the home by the NHS and our weekly fees are then adjusted accordingly to take account of this payment.
